

Critical Incident and Adverse Weather Policy

At Daisy Chain we understand we need to plan for all eventualities to ensure the health, safety and welfare of all the children we care for. With this in mind, we have a critical incident policy in place to ensure our nursery is able to operate effectively in the case of a critical incident. These include:

- Flood
- Fire
- Burglary
- Abduction or threatened abduction of a child
- Bomb threat or terrorism attack
- National outbreaks of infection or health pandemics
- Any other incident that may affect the care of the children in the nursery.

If any of these incidents impact on the ability of the nursery to operate, we will contact parents via email at the earliest opportunity, e.g. before the start of the nursery day.

Flood

There is always a danger of flooding from adverse weather conditions or through the water and central heating systems. We cannot anticipate adverse weather; however, we can ensure that we take care of all our water and heating systems through regular maintenance and checks to reduce the option of flooding in this way. Our central heating systems are checked and serviced annually by a registered gas engineer and they conform to all appropriate guidelines and legislation.

If flooding occurs during the nursery day, the nursery manager will make a decision based on the severity and location of this flooding, and it may be deemed necessary to follow the same procedure as the fire evacuation procedure. In this instance children will be kept safe and parents will be notified in the same way as the fire procedure (see Fire Safety Policy).

Should the nursery be assessed as unsafe through flooding, fire or any other incident we will follow our operational plan and provide options for childcare facilities in the local area.

Fire

Please refer to the fire safety policy.

Burglary

The management of the nursery follow a lock up procedure which ensures all doors and windows are closed and locked before vacating the premises. Alarm systems are used and in operation during all hours the nursery is closed.

The first staff to arrive will always check the premises as they arrive in the morning. Should they discover that the nursery has been broken into they will follow the procedure below:

- In an emergency dial 999 or non-emergency dial 101 with as many details as possible, i.e. name and location, details of what you have found and emphasise this is a nursery and children will be arriving soon
- Contain the area to ensure no-one enters until the police arrive.
- Where it is safe to do so the staff will direct parents and children to a separate area as they arrive. If all areas have been disturbed staff will follow police advice. This may include temporary short term closure and/or following the relocation procedure under the flood section wherever necessary to ensure the safety of the children
- The manager on duty will help the police with enquiries, e.g. by identifying items missing, areas of entry etc.
- A manager will be available at all times during this time to speak to parents, reassure children and direct enquires
- Management will assess the situation following a theft and ensure parents are kept up to date with developments relating to the operation of the nursery.
- Arrangements will be made to ensure the nursery is made safe and secure again.

Abduction or threatened abduction of a child

We have secure safety procedures in place to ensure children are safe while in our care, including taking reasonable steps to ensure that children do not leave the premises unsupervised and to prevent unauthorised persons entering the premises and at risk of abduction. Staff are vigilant at all times and report any persons lingering on nursery property immediately. All doors and gates to the nursery are locked and cannot be accessed unless staff members allow individuals in. Parents are reminded on a regular basis not to allow anyone into the building whether they are known to them or not. We also have visual reminders about closing the door behind them to prevent tailgating (another person accessing entry behind them). Visitors and general security are covered in more detail in the supervision of visitor's policy.

Children will only be released into the care of a designated adult; see the arrivals and departures policy for more details. Parents are requested to inform the nursery of any potential custody proceedings or family concerns as soon as they arise so the nursery is able to support the child. The nursery will not take sides in relation to any custody arrangements and will remain neutral for the child. If an absent parent arrives to collect their child, the nursery will not restrict access **unless** a court order is in place. Parents are requested to issue the nursery with a copy of these documents should they be in place. We will consult our solicitors with regards to any concerns over custody and relay any information back to the parties involved.

If a member of staff witnesses an actual or potential abduction from nursery we have the following procedures which are followed immediately:

- The staff member will notify management immediately and the manager will take control, dialling 999 and requesting the police, instructions from the emergency response team will be followed

- The parent(s) will be contacted
- All other children will be kept safe and secure, reassured and calmed where necessary
- The police will be given as many details as possible including details of the child, description of the abductor, car registration number if used, time and direction of travel if seen and any family situations that may have impacted on this abduction.
- Any incidents must be recorded in writing as soon as practicably possible including the outcome, who was abducted, time identified, notification to police and findings
- In the unlikely event that the child is not found, the nursery will follow the local authority and police procedure
- Ofsted will be contacted and informed of the incident
- With incidents of this nature parents, carers, children and staff may require support and reassurance following the traumatic experience. Management will provide this or seek further support where necessary
- In any cases with media attention staff will not speak to any media representatives
- Post-incident risk assessments will be conducted following any incident of this nature to enable the chance of this reoccurring being reduced.

Bomb threat/terrorism attack

If a bomb or terrorist threat is received at the nursery, the person taking the call will record all details given over the phone as soon as possible and raise the alarm and contact emergency services as soon as the phone call has ended. The management will follow the fire evacuation procedure and guidance from the emergency services to ensure the safety of all on the premises. The person who took the call will provide as much detail to the emergency services as possible. Ofsted will be notified. With incidents of this nature parents, carers, children and staff may require support and reassurance following the traumatic experience. Management will provide this or seek further support where necessary.

Any other significant incidents

All incidents will be managed by the manager on duty and all staff will co-operate with any emergency services on the scene, where applicable. The fire evacuation procedure will be followed for any other incident that requires an emergency evacuation. Other incidents e.g. no water supply will be dealt with on an individual basis taking into account the effect on the safety, health and welfare of the children and staff in the nursery.

If there is an incident outside of the nursery building and it is safer to stay inside the building we will follow the lockdown policy. Emergency services advice will be taken.

National outbreaks of infection/Health Pandemics

In the event of a national outbreak of a health pandemic, we will follow Government health advice and guidance, legal advice and advice from our insurance provider.

The setting will remain open as long as we have sufficient staff to care for the children. Depending on the nature of the pandemic we will follow all advice and implement measures to ensure that risks to vulnerable children and staff are minimised. This may include excluding infected children/staff/parents or family members from the setting for a set period of time, to

prevent the spread of infection. This decision will be done in consultation with parents, staff, legal advice and our insurance provider. Each case will be reviewed on an individual basis.

The nursery manager will notify Ofsted in the event of a critical incident.

Adverse Weather

We will not take children outdoors where we judge that weather conditions make it unsafe to do so.

Snow or other severe weather

If high snowfall, or another severe weather condition such as dense fog, is threatened during a nursery day then the manager will decide whether to close the nursery. This decision will take into account the safety of the children, their parents and the staff team. In the event of a planned closure during the nursery day, we will contact all parents to arrange for collection of their child.

In the event of staff shortages due to snow or other severe weather, we will contact all available off duty staff and/or agency staff and group the children differently until they are able to arrive. If we are unable to maintain statutory ratio requirements after all options have been explored, we will contact Ofsted to inform them of this issue, recording all details in our incident file. If we feel the safety, health or welfare of the children is compromised then we will take the decision to close the nursery.

Heat wave

We are committed to ensuring that all children are fully protected from the dangers of too much sun and UV rays as severe sunburn in childhood can lead to the development of malignant melanoma (the most dangerous type of skin cancer) in later life.

Staff will make day-to-day decisions about the length of time spent outside depending on the strength of the sun and find the right balance to protect children from sunburn by following the NHS guidance. The benefits are discussed with parents and their wishes followed with regard to clothing, hats and sun cream.

We follow guidance from the weather and UV level reports and use the following procedures to keep children safe and healthy in the sun:

- Sunhats provided by Daisy Chain are to be worn by all children at all times when playing outside in sunny weather.
- Sun protection cream (factor 40 as a minimum) is provided by Daisy Chain for all children attending the Centre. Prior written consent for staff to apply sunscreen is obtained. Parents/guardians wishing to use the cream provided must sign the appropriate section of the Declaration of Consent Form. Parents/guardians not wishing to use the cream provided by Daisy Chain will be asked to provide their own sun cream clearly labelled with the child's name. Staff must be aware of the expiry date and

discard sunscreen after this date. Sun cream containing nut-based ingredients will not be allowed in the setting.

- Parents are requested to supply light-weight cotton clothing for their children suitable for the sun, with long sleeves and long legs
- Children's safety and welfare in hot weather is the nursery's prime objective so staff will work closely with parents to ensure all appropriate cream and clothing is provided
- Staff will make day-to-day decisions about the length of time spent outside depending on the strength of the sun (UV levels); children will not be allowed in direct sunlight between 11.00am – 3.00pm on hot days from March to October, following NHS sun safety advice
- Shaded areas are provided to ensure children are able to go out in hot weather, cool down or escape the sun should they wish to or need to
- Children will always have sun cream applied before going outside in the hot weather and at frequent intervals during the day
- Children are encouraged to drink cooled water more frequently throughout sunny or warm days and this will be accessible both indoors and out
- Children are made aware of the need for sun hats, sun cream and the need to drink more fluids during their time in the sun
- Key persons also work with the parents of their key children to decide and agree on suitable precautions to protect children from burning, including those with more sensitive skin types and those that may be more tolerant to the sunshine, e.g. Black and/or Asian colouring.

Vitamin D

Sunlight is important for the body to receive vitamin D. We need vitamin D to help the body absorb calcium and phosphate from our diet. These minerals are important for healthy bones, teeth and muscles. Our bodies create vitamin D from direct sunlight on our skin when we are outdoors. Most people can make enough vitamin D from being out in the sun daily for short periods with their hands or other body parts uncovered.

We also promote the NHS recommendation to parents that all children aged under 5 years should be given vitamin D supplements even if they do get out in the sun.
